DETAILED ACTION

Status of Claims

1. Claims 12 and 15 are amended in view of applicant's claim amendments filed 2 July 2008 and 4 August 2008. Claim 14 is canceled in view of applicant's claim amendments. Therefore, claims 12-13 and 15-22 are currently under examination.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 4 August 2008 was filed after the mailing date of the Non-Final Office Action on 11 January 2008. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Specification

3. The amendments to the specification filed 2 July 2008 are entered.

Drawings

4. The drawings were received on 2 July 2008. These drawings are accepted.

Allowance

5. Claims 12-13 and 15-22 are allowed.

6. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest, either alone or in combination, the claimed gas discharge impeller for supplying a gas to a molten metal within a container, said impeller comprising:

- a rotatable hollow shaft having a bore, a first end connected to a gas supply and a second end extending upwardly into said container through an opening in

the bottom of said container;

- the second end of said shaft including a gas discharge nozzle in fluid communication with said bore, the nozzle being adapted to be submersed in said molten metal when in use; and
- a drive means for rotating the shaft about its longitudinal axis, wherein the rotatable shaft includes a seal for preventing leakage of said fluid through said opening in the container bottom, said seal being in direct sealing engagement with said rotatable shaft and said container to form a liquid seal there-between; and wherein said seal comprises a generally annular support and a generally annular bushing, said support including a lower portion extending through said container opening and an upper portion extending into said container, the support upper portion including a support surface to support said bushing and wherein said support and bushing are coaxially provided around the circumference of said shaft second end and wherein said bushing sealingly engages said shaft circumference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
